[B&K Transmission Service Shop in Muskegon MI](#) Finding a qualified foreign car repair shop in the area was a little difficult. When I checked out B&K Transmission, I found what I was looking for. The owners and mechanics are from Germany and have all the special tools and computers used to fix foreign cars. They are truly professional, explaining my cars repairs and giving me a free estimate. I'm glad I decide to let them do the repairs to my car, because it is back running smoothly, and I am very happy. I saved money on the repairs I had done, because I used a coupon they have here on their website. The staff was very pleasant, and I would highly recommend this car repair shop to anyone needing any variety of car repairs done to their vehicle.
